What's new in Cubway:

Hero for Hire is an American action television series set in a world where people can access superhuman abilities and master them for a price. In the first season, Ian Harvath, a disillusioned, idealistic, anti-hero from the NYPD, moves to the Canadian city of Quebec with his wife, which he accepts as a decoy for his responsibility for his former intelligence school, codenamed Black Widow, to keep it safe in the absence of its ostensible head, after the FBI had unsuccessfully tried to terminate it. Ian Harvath is the main character and he and his assistant Sawyer Davies travel the world to investigate cases. In Season 2, when the origins of the Black Widow were revealed and the organization was now protected by the FBI, Ian Harvath became a freelance super-agent for the FBI's Human Resources Division (HRT). The series was produced by Warner Horizon Television and aired in the United States on television from June 21 to August 30, 2019, on CBS. The series is based on the series of novels by Lee Child. Premise In the fifth novel in the Jack Reacher series by Lee Child – "One Shot – A Jack Reacher Book", which takes place in Langley Falls, a Canadian city, where Ian Harvath lives and owns the Black Widow Institute, an organization that trains "gifted" civilians to fight the crime, in his prime he was the only agent there, and now, his reputation has grown and his Institute is now protected by the FBI. This Institute was bought five years ago by the current Black Widow director, Victoria Hand, a trained assassin who believes that superhumans are very dangerous and that they should be captured and studied by the FBI. Jack Reacher is hunting the stolen people for some reason and we discover that Harvath has a fondness for Reacher, and that originally they were partners at Reacher's request. When Harvath and the others were caught, Reacher returns to the original building of the Institute to find Hand, only to discover that she's dead. The team decides to interrogate the only survivor of the raid: James "Sawyer" Davies, a former man with psionic powers who was Hand's henchman and is now a member of the Institute. Sawyer and the team track down an organization called Aurora, which has stolen the facility's computer. Eventually, they deduce that the superhumans are global in scale, and that someone else gave
