Fisotracks is the major single player soundtrack for the role-playing video game by Slacker Creations. Based on the accompanying soundtrack CD, the Fisotracks series was the result of months of recording and mixing of the music to give a powerful soundtrack experience that can be listened to outside the game. Seven different artists are represented on the CD: Ivan Reshetnyov ("Devil Spirit") is the single composer of the soundtrack. Ivan Reshetnyov's tracks are based around the theme of "Spirits of Ice" and "Spirits of the Legend." Tracks 2-4 represent the music of the "Avante" (Beyond the Range) region and the "Endless Wind" area. Track 5 represents the music from the "Endless Wind" region (the Fortress), while Tracks 6-7 represent the music from the "Días del Fin" (Days of the End) region. The first track is composed by John R1se from the "Master of Iron" (Ironman) region. The second track is composed by Exaige from the "King of Knots" (Knot King) region. Human papillomavirus 6 and 7 in seborrheic keratoses: a nested polymerase chain reaction study. Seborrheic keratoses are common warts, often also harboring human papillomavirus (HPV) DNA. Human papillomavirus 6 and 7 are associated with nonneoplastic cutaneous and mucosal lesions, but only scant reports link these HPVs to seborrheic keratoses. Our objective was to determine the prevalence of HPV 6 and 7 DNA in seborrheic keratoses and to compare this with other HPV types that have been detected in these tumors, using nested polymerase chain reaction (PCR). Nested PCR was performed on 134 seborrheic keratoses using primers MY09/11 and GP5/6, targeting the L1 gene, a highly conserved region present in all members of the papillomavirus family.
