UltraGoodness is an action-platformer game, in which you play as a demon hunter helping his companion cat in battles with demons in several levels. Game can be described as like old games of the genre, but with the time modification mechanics. Time moves slower or faster, depending on the situation. This mechanic allows you to make some smart and nice platformer levels where you have to move fast to avoid enemy fire or think about the best maneuvers to reach the end of the level. You can play the game using WASD keyboard controls, just move the cursor with arrow keys and press space to shoot. Development History: Made by 4 members of my team: me, my brother, my friend and a freelance artist. This game was made in 3 months and I'm very happy about how it turned out. Features Nine demons with different weapons that come in 6 different colors. Constant time manipulation mechanic. Time moves slower or faster, depending on the situation. Enjoy some blood, yummy demon blood! 2 levels based on the game "Lightning-fast" for dark-skeletons, with just a bigger field of view. Very short, simple and balanced levels. Competitiveness: in this game there's no multiplayer, but you can unlock some weapons for your companion cat after each finished level. So the better you play, the better chance to have some new toys for the cat! Upgrade the companion cat: give him new abilities and switch to laser-gun. Permanent companion: friendly cat can help you in battles and will become an upgrade. Easy to control even for inexperienced players: you only have to move the cursor in the direction you want the character to move and press Space to shoot. No fancy game pad, keyboard or controller is needed. To add new levels, you need to create new.glb (that's the auto-generated level format used by Unity) files and submit them to the developer. Ideally made with Unity 4.6.3. Darksouls is a first-person action hack and slash game. You play as a weaponized vampire who is cursed to be immortal. Note: The first steps of this game are very dark and bloody and contain adult subject matter. How to Play: Press WASD to move. Click to jump Click right mouse button to aim weapon Shoot by clicking space bar Your goal: destroy the evil Az
