February 4, 2015 – Coub is YouTube for video loops. You can take any video, trim the best part, merge with other videos, add soundtrack. And all this can be done right in the Coub window. For this, the first social network Coub was created. Now Coub is a whole ecosystem that includes other services that help you make video collages. With them, for example, you can interact with your voice, you can create your own video-based effects, or you can just watch videos without registration and authorization. But the most important thing is that you can do it for free. Everything is free in Coub.
